

HABIT TRACKER

PREMIUM COLLECTION

UNDATED · A4

How to Use

Monthly Habit Tracker × 12

Habit Review × 2

Notes × 2

1	1. Set Your Habits Choose up to 12 habits you want to track. Write them in the rows on each monthly page. Start with habits you already do consistently, then add new ones gradually.
2	2. Track Daily Each day, mark the corresponding cell: ✓ for completed, ✗ for missed, or use your own symbols. Consistency is key — even partial completion counts!
3	3. Review Weekly At the end of each week, count your completed days. Aim to improve by at least one day each week. Small progress adds up.
4	4. Monthly Reflection At month-end, use the Habit Review page to analyse your patterns. Which habits thrived? Which need adjusting? Be honest and compassionate.
5	5. Adapt & Grow It's OK to change a habit if it's not working. The goal is sustainable progress, not perfection. Celebrate every win, no matter how small.
